INT.CL. : B43L 19/00 B65H 35/07

TITLE : TRANSFER UTENSIL

ABSTRACT : PROBLEM TO BE SOLVED: To restrict the movement of a transfer tape in the width direction, and facilitate the confirmation of a place to be transferred.

SOLUTION: On a main body 2, a discharging reel 3 on which a transfer tape 6 wherein on one surface of a base material, a transfer film is provided, is wound, a transfer head 5 which transfers the transfer film on the transfer tape 6, and a taking up reel 4 which takes up the already used transfer tape, are arranged, and at least at one location of the transfer utensil 1, a movement- restricting means 9 which restricts the movement of the transfer tape 6 in the width direction, is provided.
